May Sharp, a 36-year-old shop assistant, said:

"It was at nine o'clock, just after I'd opened the shop. Two men in dark clothes came in holding guns. They were wearing clown masks, so I couldn't see their faces, but one was tall and the other was short. The tall one pointed a gun at me and told me not to do anything. They broke the glass display cases, and filled up two bags with gold chains and diamond rings and things – it must have been about fifty thousand pounds of jewellery. Then they ran out and got into a red car that was waiting outside. I don't know exactly what kind of car it was, but it was a big four-door car. The short one didn't say anything, but the tall one sounded Scottish."

Gary Williams, a 40-year-old doctor, said:

"I was driving back to Ash from Sturry at about ten o'clock last night. I was just going past John Dickinson's farm when I saw something huge and shining in the field next to the road. It was at least ten times bigger than my car, and it appeared to be covered in lights. I've never seen anything like it. I was really terrified, so I turned my car around and drove away as fast as I could. I don't know for certain that what I saw was a UFO, but I can't think what else it could have been. Don't tell anyone where I am now – I don't want any reporters outside my door."
