Hi Julie.

Thanks for your email. I'm sorry to hear you aren't feeling your best at the moment, but I've got some ideas that might help you feel better.

You say you feel tired all the time, but you can't sleep properly and often wake up in the middle of the night. I think you're tired because you're working too much and this is very stressful. You need to do something to relax, such as read a book or go for a long walk.

You also say that you keep getting a sore throat and a bad cough. My advice is to see your doctor! You should get a checkup to find out why. Maybe you also need to eat healthier food, so try eating lots of fresh fruit and vegetables.

Finally, you say that you're not very fit because you don't have time to do much exercise. It's important that you find time to do some regular exercise. You could get a bicycle and cycle to work, or you could join a local gym.

I hope that this helps and that you start to feel on top of the world. Write and let me know soon.

Best wishes,

Tina

3 Read the writing task and answer the questions.

This is part of an email from a friend. Write a reply giving one or two pieces of good advice for each of the problems.

I just can't seem to get to sleep at night, so I watch late-night TV and then I can't wake up in the morning. Because I'm tired, I feel sick all day, so I don't eat properly. Finally, I like playing sport but I'm too tired to do any exercise.
